# Greetings to the Graduates

The pomp and ceremony of convocation exercises formally mark an important life transition for you, our graduates. Surrounded by proud families, friends, teachers and mentors, you may now move forward with confidence, having earned our admiration and praise.

Each of you chose to follow a rigorous intellectual path and each has proved worthy. Today, you mark an important milestone in your life while we, your community, mark an important one in ours. Ninety-nine years ago, the University of Alberta was founded on a scrubby piece of riverbank by men and women who believed this province should be built on a foundation of knowledge.

At that time, our founding president, Henry Marshall Tory, promised that the knowledge within these walls would not remain here, but would flow forever outward in service to our community. Today, you join more than 200,000 University of Alberta alumni worldwide in fulfilling that promise.

---

On behalf of Premier Klein and my colleagues in the Legislature, congratulations to all University of Alberta graduates.

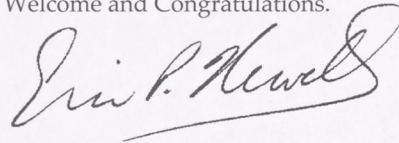

As a University of Alberta graduate, I can tell you that your hard work and dedicated studies will benefit you for a lifetime. The things you have learned, the skills and abilities you have gained, the experiences you've had, and, most importantly, the relationships you've built during your time at university will serve you well as you move forward into the next phase of your life.

There has never been a better time to be a graduate in Alberta. You are graduating during Alberta's centennial year—a time to celebrate the past, but also to look ahead to the possibilities and promise of the future. All of us in this province are fortunate to have such a rich legacy of success forged during Alberta's first 100 years, and we can look

Since those first classes back in 1908, our community has grown beyond the borders of Alberta to encompass the world in one global community. Learning to live peacefully and prosperously in this community will require leaders and citizens of vision, commitment and drive. More than ever, the world needs leaders and citizens like the people you have become.

While today may seem like an ending, it is not. Today is a beginning, a first step along a new path. You will continue to grow, to learn and to contribute. You will also continue to be a life-long member of our University of Alberta community.

Welcome and Congratulations.

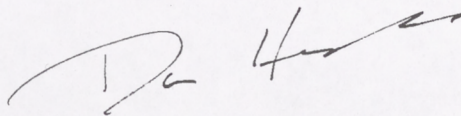

Eric P Newell, OC, LLD (Hon)  
Chancellor

forward to even greater success in the next 100. And you will each play an important role in building that success.

I wish you all the very best as you embark on the next steps in your life, whatever they may be. I hope you look back on your time in university with great fondness and pride, and that you build on those treasure memories in the years to come.

Once again, congratulations to the entire graduating Class of 2005! And best wishes for a wonderful future.

Honourable David Hancock, QC  
Minister Advanced Education

## *Greetings from Faculty and Staff*

Universities began as small collections of scholars who worked together to preserve and advance knowledge. Students came to study with them and, in due course, an administrative structure arose to provide system and recognition for those studies. This ancient structure is preserved at the University of Alberta, with the faculty and the students providing the core of the University's purpose: teaching and the advancement of knowledge.

The faculty and staff congratulate you, the graduates, on the successful completion of your present studies which is recognized by the degrees to which you are admitted today. We hope your present knowledge provides a sound base for an education which will continue throughout a rewarding life. To quote Honorary Degree Recipient Tommy Banks: "Try to be a good person. You will be amazed how rewarding it is."

*Congratulations from the Faculty and Staff!*

## *Honorary Degree Recipient*

### *Dr Janice Stein*

Dr Janice Stein is one of Canada's leading scholars in the field of international relations. She is an expert on the systemic effects of historically situated foreign policies, the political psychology of negotiation in international relations, Middle East politics, and Israeli foreign policy.

Dr Stein is the Belzberg Professor of Conflict Management and Negotiation in the Department of Political Science and the Founding Director of the Munk Centre for International Studies at the University of Toronto. She received a Bachelor of Arts degree from McGill University, and a Master of Arts degree from Yale University, returning to McGill for doctoral studies. She began her teaching career in 1966 at Carleton University, moving to McGill University in 1968 and then to the University of Toronto in 1983.

Dr Stein is the author of over 100 books, book chapters and articles, including *The Cult of Efficiency* (2001). She is the co-author of *We All Lost the Cold War* (1994) and *Networks of Knowledge: Collaborative Innovation in International Learning* (2001), as well as co-editor of *Powder Keg in the Gulf: Security in the Middle East* (1995).

She is a member of the Board of CARE Canada, and was recently elected as an Honorary Foreign Member to the American Academy of Arts and Science. A member of the Board of Directors for the Canadian Institute of Strategic Studies and the Working Group on the Middle East for the Canadian Department of Foreign Affairs and International Trade, Dr Stein also serves as Vice-Chair of the Education Advisory Board to the Minister of Defense. She recently joined the Advisory Committee to the Chief Justice of the Supreme Court of Canada and the Canadian Judicial Council. She is also an active member on many international advisory panels.

Dr Stein is renowned for her efforts to engage and address public audiences outside government and academia. She is a commentator on several Canadian television stations, including CBC and TV Ontario. She occupies a weekly political panel spot on TV Ontario, and developed the television series *Going Global* which features discussions on international affairs with policy experts, university professors and students. In addition, *The Globe and Mail* recently noted Dr Stein to be the most highly quoted academic in Canada.

A fellow of the Royal Society of Canada, Dr Stein was the Massey Lecturer in 2001. She is also a Trudeau Fellow, and was awarded the Molson Prize of the Social Science and Humanities Research Council in 2003 for an outstanding contribution by a social scientist to public debate.

A brilliant professor, Dr Stein has made lasting contributions to the study of foreign policy and world politics.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Janice Stein:*

***Hays, Mary. Female Biography; or, Memoirs of Illustrious and Celebrated Women, of all Ages and Countries. Alphabetically arranged. London: Richard Phillips, 1803.***

*Mary Hays is remembered today primarily as the friend who introduced William Godwin to Mary Wollstonecraft. She was, however, an important intellectual figure in her own right who published polemical essays in the 1790s, and who wrote a number of sentimental novels, biographies, and histories. These six volumes contain accounts of the lives of hundreds of women from ancient times to the beginning of the 19th century.*

# Congratulations Graduates

*The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.*

Ring out a cheer for our Alberta  
A song of praise to Varsity  
For the splendour of our mountains  
Our prairies green and gold,  
Ranked beneath whose glowing colours,  
Thy legions march enrolled.  
Our memories will live forever  
Beloved University  
We will fight for thee and cheer  
And ever hold thine honor dear.  
Our Alma Mater U of A

## Recession

*Members of the audience are requested to remain at their places until the Platform Party and the graduates have recessed.*

# *Congratulations Honorary Degree Recipient*

## *Dr Roderick Douglas Fraser*

Born in Vegreville, Alberta, and raised in Calgary and Edmonton, Dr Fraser received a Bachelor of Arts degree in History and Economics in 1961 and a Master of Arts degree in Economics in 1963 from the University of Alberta. He met his wife Judith while both were students at the University of Alberta. In 1965, he received his PhD from the London School of Economics in London, England.

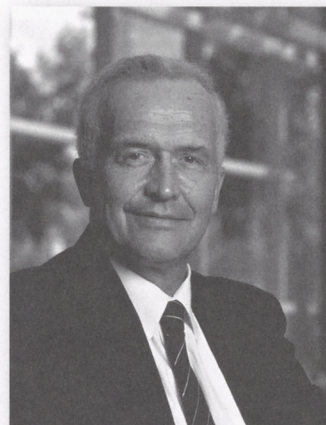

Prior to becoming President and Vice-Chancellor of the University of Alberta, (a position he held from 1995 to 2005), Dr Fraser was Principal (Resources) at Queen's University in Kingston, Ontario. He was also Professor of Economics at Queen's, and served as Dean of the Faculty of Arts and Science.

Dr Fraser's vision and dedication set the course for raising the University of Alberta's international profile as a dynamic teaching, learning and research institution. In just ten years, the University signed over 240 international agreements in 46 countries. Highlights include: an agreement with the China National School of Administration; the launch of the Canadian Centre for Austrian and Central European Studies (now known as the Wirth Institute) at the University of Alberta; and an agreement with the Universidad Nacional Autonoma of Mexico (UNAM) for research collaboration in petroleum and energy-related areas and the exchange of faculty members and graduate students.

Dr Fraser played a key role in forging a partnership between the University of Alberta, the National Research Council and the Government of Alberta to build the National Institute of Nanotechnology on campus. He also assisted the Alberta government with the creation of the \$500 million Alberta Heritage Foundation for Science and Engineering Research Fund. Additional achievements during his tenure include an increase in University of Alberta student enrolment from 29,000 to 35,000; an increase in annual research funding from \$94 million to more than \$400 million; the construction of 16 new buildings, and the hiring of 1,174 new professors thanks in part to an innovative faculty renewal program launched in 1995.

In 2000-2001, Dr Fraser served as Honorary Chair of the University of Alberta United Way fundraising campaign. The University contributed the second largest amount of any postsecondary institution in Canada that year. He was also instrumental in building stronger links to the community with the Community University Partnership (CUP) for the Study of Children, Youth and Families, formed in July 2000.

Recently named an Officer of the Order of Canada, Dr Fraser has played an active role in many organizations and has made many outstanding contributions to postsecondary education and public life.

*The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Roderick Douglas Fraser:*

***Canadian Pacific Railway. Own Your Own Home in Canada and Apply for a Ready-Made Farm to the nearest Canadian Pacific Agent.*** London: Eyre & Spottiswoode, H.M. Printers, (1900).

*At the beginning of the last century, the Canadian Pacific Railway was the largest owner of real estate in Northwestern Canada. Brochures, pamphlets and an array of these eye-catching, large format posters were distributed to railway stations, mechanics' institute reading rooms, hotels, agricultural fairs and public meeting rooms. The posters are very rare as they were generally torn down and discarded to make room for newer versions.*

# Congratulations Graduates

*The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.*

# Welcome to the Alumni Association

## Because your degree is only the beginning...

As a graduate of the University of Alberta, you are part of the University's worldwide alumni family, now more than 200,000 members strong, playing leading roles in their communities and in the world. Internationally known U of A alumni include former Canadian Prime Minister Joe Clark; former World Conservation Union President Jay Hair; Nagoya University founder, the late Yuichi Kurimoto; former Alberta Premier Peter Lougheed; Nobel Prize winning physicist Richard Taylor; and Margaret and Ronald Southern founders of the international equestrian facility – Spruce Meadows. All around the world, your Alumni Association can help you with services, contacts, and news from your alma mater, so stay in touch!

## Exclusive Benefits and Services

As an alumnus, you will receive the University's award-winning alumni magazine, *New Trail*, free of charge for life – just let us know when you move. The Alumni Association has also launched a monthly electronic newsletter called *e-trail*. We also offer special rates for recreational facility access, Bookstore discounts, travel/education programs, group insurance and financial services, and other services.

## Chapters of the Alumni Association

Chapters exist to maintain connections between alumni from specific faculties or clubs on the University campus. Volunteer opportunities exist for alumni interested in maintaining and building upon valuable university contacts through these Chapter activities. Contact can be made through the Office of Alumni Affairs.

## Reunion 2010!

The Alumni Association invites you back to a Reunion every five years, so mark your calendars! In the meantime, the Alumni Association also supports a Class Representative Program to help you stay in touch with your friends and classmates—contact the Office of Alumni Affairs or go to the alumni website for more information.

Branches of the Alumni Association

While approximately forty percent of our graduates live in Edmonton and nearby communities, alumni live, work, and make their impact felt in countries in all corners of the globe. There are U of A alumni volunteer leaders in more than forty communities around the world, providing social and career contacts to graduates moving to a new area, and new branches are always being formed. If there is an alumni volunteer leader and/or branch in the city where you will be establishing roots, contact the Office of Alumni Affairs for more information. If there isn't one, perhaps you would like to help get it started!

# History of Convocation

## Magna Congregatio

*In the eleventh century, a new vitality quickened all aspects of the civilization of Western Europe. The creative forces thus unleashed soon found expression in new institutions, and of these the university bids fair to be the most enduring. The modern university is the lineal descendant of the university of the Middle Ages. Its purposes and organization, even much of its ceremonial, are medieval in origin.*

The medieval university was originally called a *studium generale*, that is, a place of learning to which teachers and students from anywhere resorted. The first *studia* were at Salerno, Bologna, and Paris. These came into existence spontaneously and developed through the twelfth century as the needs of the time and their inner necessities dictated. In the thirteenth century these spontaneous associations crystallized into guilds or corporations endowed by Church and State with specific privileges which guaranteed the internal autonomy necessary for the vocation of study. To these corporations was increasingly applied the word *universitas* denoting the entire group of those responsible for the transmission of higher learning and the pursuit of knowledge.

By the beginning of the 14th century, two forms of university organization had appeared. At Bologna, primarily a higher school of canon and civil law to which came men experienced in ecclesiastical and secular administration, the control of the *studium generale* passed to the students; hence Bologna was a *universitas scholarum*. On the other hand in Paris and Oxford, whose dominant faculty was the Faculty of Arts, the *studium* emerged under the direction of a guild of teachers, a *universitas magistrorum*. Through its own officials, notably the chancellor (once symbol of external control and by now of internal autonomy), the guild of teachers developed its courses of instruction, administered its own affairs and admitted to its company only those who had met its intellectual standards. The University of Alberta stands in the tradition of Paris and Oxford.

Originally the goal of the medieval student was certification by the guild of teachers that he also was qualified to teach (the *licentia docendi*). With the passage of time the student's progress through the curriculum was marked by ceremonies which signified his successful attainment of a certain level (*gradus* or in modern language, degree) of competence. The Bachelor had completed his apprenticeship in the Faculty of Arts. The Master was now qualified to teach in that Faculty and was thus incorporated into the *universitas magistrorum*.

The Doctor was one who, having obtained the mastership, had successfully completed the curriculum of one of the "higher" faculties (in the Middle Ages, law, medicine, and theology) and was now qualified to teach in those faculties. Inevitably the degrees of the *universitas* did more than admit their holders to the teaching profession. They served the wider social purpose of demonstrating their holders' fitness to serve the entire medieval community.

Today's ceremony stems from the medieval tradition. The procession of the guild of teachers, whose solemn assembly, or convocation, is the modern equivalent of the medieval *magna congregatio* of all faculties, is led by the Chancellor and the Chief Marshal carrying the mace, the symbol of the University's corporate authority. The academic gowns, hoods, and caps, once the sober, disciplined dress of secular clergy and teachers, declare in their various designs and colors the academic qualifications of the Faculty. The citations and presentations by the Faculty to the Chancellor attest to him and to society the degree of proficiency attained by the students of the University. There follows a visible and public act whereby the *universitas magistrorum*, acting through its Chancellor, confers upon the students the appropriate degree. It is the act, not a certificate, which constitutes the validity of the degree bestowed. More, the formula, "I admit you" and the placing of the students' hands within the hands of the Chancellor and his associates, bind the students in the appropriate degree to the *universitas magistrorum*. The students thereafter bear for all time the mark of their association with this University. They have received what the University has been and presently is. Because they bear in themselves the promise of the future, they are what the University hopes to be. Despite its solemnity, convocation is a joyous occasion.

The history of academic dress reaches far back into early days of the oldest universities. A statute of 1321 required that all "Doctors, Licentiates, and Bachelors" of the University Coimbra wear gowns. In England, in the second half of the fourteenth century, the statutes of certain

colleges forbade "excess apparel" and prescribed the wearing of a long gown. It is still a controversial question as to whether academic dress finds its sources chiefly in ecclesiastical or in civilian dress. Gowns may have been counted necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head until superseded for that purpose by the skull cap. This was itself displaced by a headdress more or less like one or another of those now recognized as "academic." (The mortar board - the hard, square cap commonly used as academic headdress today - evolved from the softer, more flexible "square cap" introduced in England about 1490. It is named for the square board on a handle used by stone masons for holding the mixed mortar to be applied to walls.) Both Cambridge and Oxford have made academic dress a matter of university control to the extent of even its minor details and have repeatedly issued revised regulations. In Laudian days in Oxford it was prescribed that any tailor who departed from authorized design "even by a nail's breadth" in the making of any article of collegiate costume was to be punished by the vice-chancellor of the university.

Academic dress at the University of Alberta generally follows the prescription of Cambridge University in the design of the gown, and that of Oxford University in the design of the hood. See the Academic Dress page in this program for a detailed description of the academic dress at this institution.

In addition to the apparel worn by holders of degrees conferred by the University of Alberta, a collection of apparel specific to particular offices has also been developed. The President of the University wears a green gown faced with gold braid trim and lining and a black cap with a gold tassel. The Chancellor and Chancellors Emeriti wear gowns of teal blue with silver trim and black caps with silver tassels. The gowns of the senior officials bear an embroidered crest of the University. University Governors and Senators wear stoles bearing the crest of the University over their gowns: gold for Governors and green for Senators. The University Registrar wears a green gown with gold trim on the sleeves.

Graduates and staff of the University of Alberta who wish to purchase their own academic apparel are invited to contact the Assistant Registrar, Academic Awards and Ceremonies in the Office of the Registrar and Student Awards. *Acknowledgements: The University of Western Ontario, The American Council on Education.*

# The University Coat of Arms

## *Quaecumque Vera*

On November 15, 1909, a motion by the faculty recommended to the Senate the adoption by the University of the provincial coat of arms, with the addition of an open book above the shield and the motto *Lux et Lex*; the words "University of Alberta" were to be attached as might seem fit. The present motto was substituted in January 1911 for the one originally proposed. In 1950 the representation of the coat of arms was altered to conform better to the principles of heraldic design but these arms were never actually registered.

In 1994 a new coat of arms incorporating a number of traditional symbols associated with the University or the Province, or with learning, was officially granted by the Canadian Heraldic Authority. In non-technical language, it consists of the following elements:

**Shield:** a representation of the topography of Alberta (wheat fields, hills, rivers, and the Rocky Mountains) derived from the provincial coat of arms, and a book symbolizing learning.

**Crest:** a Great Horned Owl, the provincial bird and a traditional symbol of wisdom.

**Supporters:** a pronghorn, taken from the provincial coat of arms, and a golden bear, long the University mascot, standing on a mound of wild roses, the floral emblem of Alberta.

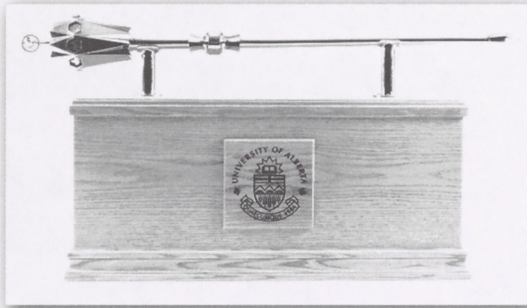

**Motto:** *Quaecumque vera*  
("Whatsoever things are true,"  
Philippians 4:8)

The arms are copyrighted and may not be used without permission of the Board of Governors. The name of the University is similarly protected.

## University Traditions

The University of Alberta Mace was designed and crafted specifically for the University as a gift from Dr Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 to 1970. Michael Galbraith presented the Mace on behalf of his father on May 26, 1970.

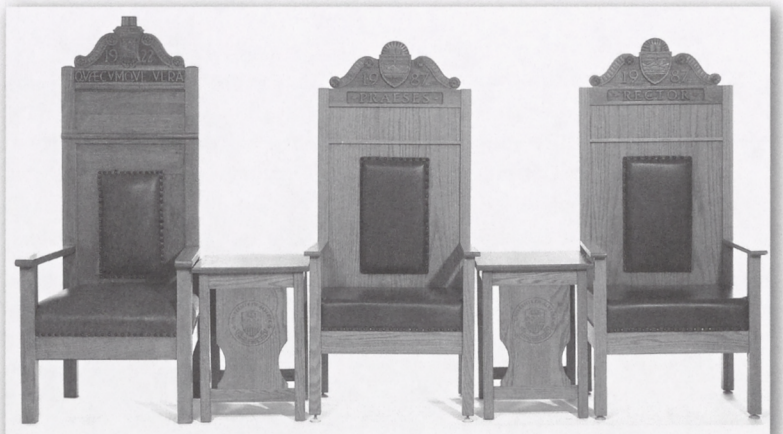

Among its elements are the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto "Quaecumque Vera" ("Whatsoever Things Are True" Phil 4:8) encircles the staff. The Mace is made of sterling silver which was rhodium plated after the insertion of the various enamelled shields which make up its elements. A special electroplate process was used to apply 24 karat gold to other parts of the Mace.

It was intended that the Mace should be modern in appearance but with medieval origins. The preponderance of visual weight at the top of the staff and the rather complex section through the metalwork at this point are reminiscent of the use of the mace as a weapon, defensive or aggressive.

The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power - but the power of knowledge and the importance of the University in the community.

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded leather back and seat. Above the padded-leather back is carved the University motto "Quaecumque Vera" together with the class year, 1922, and the University emblem.

In 1987, the family and friends of Dr Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of an oak stand for the University of Alberta Mace and two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

## Ceremonial Colors

All undergraduate and master's degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point.

Hoods are made in the Oxford pattern of spruce green material. The Bachelor's hood has a border three inches wide of the color distinctive of the Faculty as noted below. The Masters' hood has a full lining of the color distinctive of the Faculty also noted below. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

### Doctorate Degrees

'Doctors' gowns (PhD, DMus, and EdD) conform to the Intercollegiate Code in design. They are made of black material and the velvet trim on the sleeves is Philosophy Blue for the PhD and DMus, and Education Light Blue for the EdD. Doctors' hoods conform to the Intercollegiate Code in shape, size, and color. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and matches the velvet trim on

the gown's sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

### Honorary Doctorates

Honorary Doctors of Laws (LLD), Letters (DLitt), and Science (DSc) wear a scarlet robe faced with white silk. Hoods are made in the Cambridge form of scarlet silk with a full lining of white silk. Caps are black velvet with a gold tassel.
